Hobart Electronics Conflict Minerals Statement

We at Hobart Electronics are committed to the elimination of Conflict Minerals in our supply chain. Conflict Minerals being defined as: Cassiterite Ore (from which Tin is extracted,) Gold, Cobalt, and Coltan Ore (from which tantalum is extracted.)

Hobart Electronics requires its suppliers comply with the Dodd-Frank Wall Street Reform and Consumer Protection Act. As a part of this, we require them not to use Minerals originating in the conflict regions of the Democratic Republic of Congo.

To confirm compliance, and in order to fulfill our 'due diligence' requirement, we ask suppliers provide a letter of compliance (similar to this one) or, at their discretion, a completed EICC (Electronic Industry Citizenship Coalition) Conflict Minerals Reporting Template.

To our knowledge, we have no supplier in violation of Dodd-Frank at this time. If you have any questions or need additional information please contact us:

Phone: 219-947-1555
Email: info@hobart-electronics.com

Thank you,

Gary N. Kriadis
President
Hobart Electronics
